

Das neue Studmail-Konto auf dem iPhone einrichten

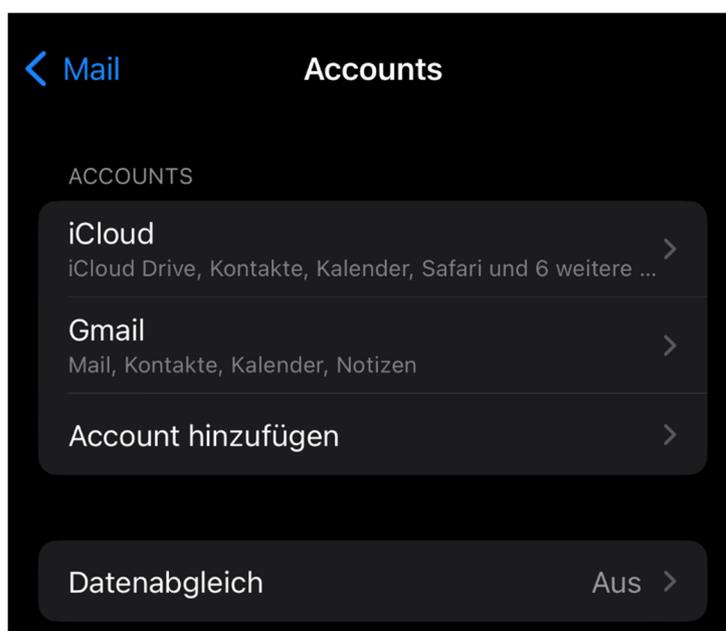

1. Einstellungen öffnen

2. Mail öffnen

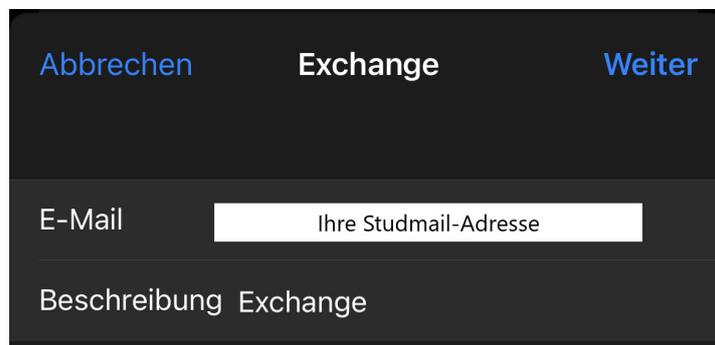

3. Accounts öffnen und Account hinzufügen

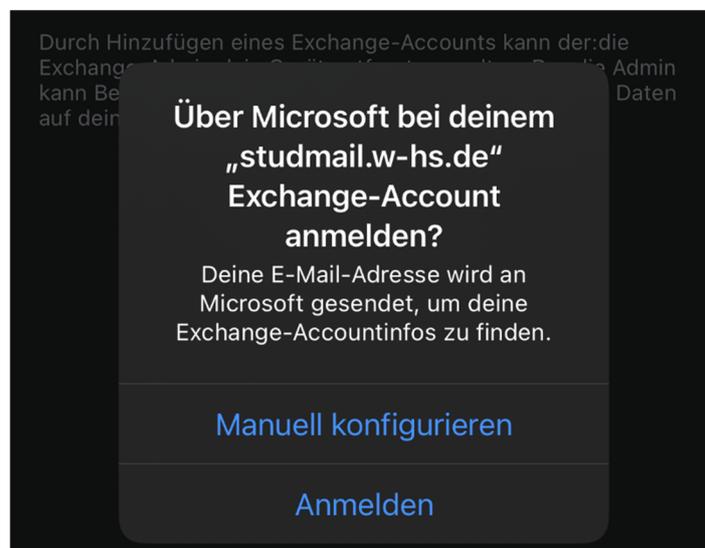

4. Microsoft Exchange auswählen

5. Studmail-Adresse und Beschreibung eingeben und weiter

6. Anmelden

7. Das Passwort eingeben und weiter

The screenshot shows a configuration screen with a dark background. At the top, there are two blue buttons: "Abbrechen" on the left and "Weiter" on the right. Below the buttons, there are four rows of input fields:

- The first row is labeled "E-Mail" and contains a white text box with the placeholder text "Ihre Studmail-Adresse".
- The second row is labeled "Passwort" and is currently empty.
- The third row is labeled "Beschreibung Exchange".

8. Konfiguration und weiter

The screenshot shows a configuration screen with a dark background. At the top, there are two blue buttons: "Abbrechen" on the left and "Weiter" on the right. Below the buttons, there are six rows of input fields:

- The first row is labeled "E-Mail" and contains a white text box with the placeholder text "Ihre Studmail-Adresse".
- The second row is labeled "Server" and contains the text "imap.w-hs.de".
- The third row is labeled "Domain" and contains the text "za".
- The fourth row is labeled "Benutzername" and contains a white text box with the placeholder text "Ihr ZA-Benutzername".
- The fifth row is labeled "Passwort" and is currently empty.
- The sixth row is labeled "Beschreibung Exchange".

9. Synchronisation und sichern

The screenshot shows a configuration screen with a dark background. At the top, there are three blue buttons: "Abbrechen" on the left, "Exchange" in the center, and "Sichern" on the right. Below the buttons, there is a list of five items, each with an icon, a label, and a green toggle switch:

- Mail (envelope icon) with a green toggle switch.
- Kontakte (person icon) with a green toggle switch.
- Kalender (calendar icon) with a green toggle switch.
- Erinnerungen (reminder icon) with a green toggle switch.
- Notizen (notepad icon) with a green toggle switch.

10. Fertig
